

AT A GLANCE

3 terrorists gunned down in Kulgam encounter

SRINAGAR : One more terrorist has been killed in an ongoing encounter between militants and security forces in the Chimmer area in south Kashmir's Kulgam district on Wednesday, taking the toll of terrorists killed to three, officials said. "One more unidentified terrorist has been killed in the Kulgam encounter. Search is going on," the police said. The firefight between the terrorists and the security forces started after a joint team of the police and the army cordoned off the area and launched a search operation on the basis of specific information about the presence of terrorists there. As the security forces zeroed in on the spot where the terrorists were hiding, they came under a heavy volume of fire that triggered the encounter. A search operation is currently underway in the area.

SCR seizes tickets worth Rs 16.32 lakh in crackdown

HYDERABAD : South Central Railway (SCR) has seized train tickets worth Rs 16.32 lakh during a special drive against touts and unauthorised agents. To curb the menace of black-marketing of passenger reservation tickets and to facilitate a hassle-free journey for passengers, the SCR intensified massive special drives against touts and unauthorised agents at all reservation offices and travel agencies in major stations. The Railway Protection Force (RPF) under the supervision of Principal Chief Security Commissioner, Inspector General of Police, G.M Eswara Rao, conducted special raids from June 22 to June 27 at various locations all over the zone. In this operation, 178 live tickets, and 1,886 used tickets worth of Rs 16.32,643 which were booked by the touts on commission basis were seized and 36 touts were apprehended, SCR said. The drives are intended to save the passengers from black marketing of tickets and also to arrest the loss of revenue to the Indian Railways as the touts are carrying business without license from Indian Railways. The RPF is committed to take stringent action against touting activities, it added.

None of available vaccines affect fertility of either men or women, says MoHFW

NEW DELHI : Putting concerns regarding COVID-19 vaccination at rest, the Ministry of Health and Family Welfare in a press release on Wednesday stated that none of the available vaccines affects the fertility of either men or women. "There is no scientific evidence suggesting COVID-19 vaccination can cause infertility in men and women. The vaccines have been found to be safe and effective," the ministry said. The ministry said that all vaccines and their constituents are tested first on animals and later in humans to assess if they have any such side effects. "Vaccines are authorized for use only after their safety and efficacy is assured," it added. Adding to the same, Dr N. K Arora, Chairperson of COVID-19 Working Group of National Technical Advisory Group on Immunization (NTAGI) said, "Misinformation was also created during the administering of Polio vaccine in India and abroad that children .

Terror financing surges amid Covid, rampant use of cryptocurrency

MAHUA VENKATESH

NEW DELHI : Terror financing and money laundering have blossomed in the last one year as countries and governments across the world directed their focus only on battling the Covid 19 pandemic. The new age digital asset in the form of crypto-currency has also boosted terror financing. Crypto currencies are witnessing a surge in their market value despite the sharp contraction in economic activities worldwide due to the pandemic. The sudden change in the pattern and scale of financial transactions in the wake of the pandemic has provided

an opportunity to criminals and terrorists, sources told India Narrative. "Unlawful activities and terror financing may have shot up significantly as countries continue to battle Covid 19. Pattern and sources of financing have undergone a massive shift due to pandemic related stress. This has made it very difficult for authorities to track the quantum or the source of inflow of money," BK Singh, Retired Joint Commissioner Crime, Delhi Police told India Narrative. Though terror financing and money laundering are different activities, both are interlinked as they unlawfully leverage the weaknesses and

lacunae of the financial system to carry out criminal activities. Singh added that crypto currencies which typically are not regulated by govern-

sive use of this asset form for illegal and criminal activities. The crypto currency space must be watched out. At present it is not regulated and this provides an opportunity to terror groups," Singh said. Meanwhile, the global money laundering and terrorist financing watchdog Financial Action Task Force (FATF) retained Pakistan in its 'grey list' for failing to weed out terror financing and money laundering. FATF noted that while Pakistan completed all but 1 of 27 items, but in its Counter Terror Financing (CTF) and Anti Money Laundering (AML) effort, it has failed to adequately investigate and

prosecute senior leaders and commanders of UN-designated terrorist groups. "The FATF has retained Pakistan in the grey list and this is a clear indication that even closer home terror financing has continued despite Covid," another analyst who did not wish to be identified said. While the ghastly terror attacks in Mozambique Palma on March 24 did not attract global attention, he source said that it is a wake-up call for the world. The pandemic and its fallout on financial dealings have provided an opportunity to several terror groups such as the Islamic State (IS) to reorganise and re-boot with a

new hub, sources said. FATF in a report noted that the near 360 degree change in behaviour due to the pandemic- "whether the behaviour of individuals, companies or governments i½ have in turn presented criminals with new opportunities to commit crimes and launder the proceeds." The International Monetary Fund (IMF) has pointed out that money laundering and terrorism financing activity in one country can have serious cross-border and even global adverse effects. "Jurisdictions with weak or ineffective controls are especially attractive for money launderers and financiers of terrorism," it said.

Centre provided 32.13 cr vax doses to states/UTs

NEW DELHI : The Union government said on Wednesday that more than 32.13 crore (32,13,75,820) vaccine doses have been provided to the states/Union Territories so far, both through the free of cost channel and the direct state procurement category. Of this, the total consumption, including wastages, is 31,40,75,654 doses, as per the data released by the Union Health Ministry on Wednesday morning. More than 73 lakh

(73,00,166) balance and unutilised vaccine doses are still available with the states/UTs for administration. Also, over 24,65,980 vaccine doses are in the pipeline and will be received by the states/UTs within the next three days. The vaccination drive has been ramped up by the availability of more vaccine doses, advance visibility of vaccine availability to states and UTs for enabling better planning by them, and

streamlining the vaccine supply chain. As part of the nationwide vaccination drive, the Centre is supporting the states and the UTs by providing them Covid vaccine doses free of cost. In the new phase of the universalisation of the vaccination drive, the Centre will procure and supply (free of cost) 75 per cent of the doses being produced by the vaccine manufacturers in the country to the states and UTs.

Provide opt-out option to CA candidate: SC on Covid-affected

NEW DELHI : In a major relief to aspiring chartered accountant candidates, the Supreme Court on Wednesday directed the Institute of Chartered Accountants of India (ICAI) to provide "opt-out" option to a candidate in the CA exams scheduled from July 5, on account of covid-related difficulties faced by the candidate or family members. A bench comprising Justices A.M. Khanwilkar, Dinesh Maheshwari and Aniruddha Bose told ICAI to not insist on RT-PCR negative reports as long as the candidate gets a medical certificate from a registered medical practitioner. The bench said the opt-out facility can be availed by candidates who suffered from COVID-19 or if their family member suffered from the disease in the recent past. The bench also added that it must be certified by a medical practitioner, saying that candidate is not fit to prepare for the exam. The bench did not agree with ICAI's policy of not giving "opt-out" option if the last-minute change of exam centre is within the same city. The bench said "opt-out" option should be given even if the change of exam centre is within the city.

"Such candidate can appear in backup exam to be held when situation is conducive," added the court. The top court order came on three petitions connected with CA exams, scheduled to begin from July 5. The top court said candidates who are in containment zones can opt out and this will not be treated as an attempt, and such candidate can appear in the backup exams in November. The bench added that if any candidate, while taking the exam, contracts Covid, and he/she is unable to appear in remaining

papers, then such candidate will be allowed to opt out and it will not be treated as attempt. Such candidates can appear in November for the whole set of exams, the court added. The ICAI in a note, submitted to the top court, said the opt-out option shall also be extended to those candidates (whether under the old or new syllabus) who have recently suffered from COVID-19 or yet to recover from the after effects of the COVID-19 and consequently

unable to appear in the examinations on production of medical certificate issued by registered medical practitioner that the candidate has recently suffered from COVID-19 and is yet to recover." In case there are any last-minute changes in the Examination Centres due to operational or logistical reasons, the candidates would be given an option to opt-out of the Examination only in case of inter-city change. No opt-out option .

Bharat Biotech says not received any advance payments from Brazil

NEW DELHI : After Brazil announced suspending a \$324 million Covaxin contract that has mired President Jair Bolsonaro in accusations of irregularities, Bharat Biotech has said it has not received any advance payments nor supplied any vaccines. "During the past few weeks, there have been reports in the media at large misrepresenting the procurement process of COVAXIN, in Brazil and other countries," Bharat Biotech said. In the specific case of procurement of Covaxin by Ministry of Health, Brazil, since the first meetings with MOH Brazil during November 2020, until June 29, 2021, a step by step approach has been followed towards contracts, and regulatory approvals, during this 8 long month long process. Bharat Biotech said "EUA was received on 4 th June 2021. As of 29 th June 2021, Bharat

Biotech has not received any advance payments nor supplied any vaccines to MOH Brazil". Bharat Biotech has followed a similar approach towards contracts, regulatory approvals and supplies in several countries worldwide, where Covaxin is being supplied successfully. "The pricing of COVAXIN has been clearly established between \$15-20 per dose for supplies to Governments outside India. The pricing for Brazil has also been indicated at \$ 15 per dose. Bharat Biotech has received advance payments from several other countries at the above price points, with supplies in process, pending approvals," it added. Precisa Medicamentos is Bharat Biotech's partner in Brazil, providing assistance, guidance and support with regulatory submissions, licensure, distribution, insur-

ance, conduct of phase III clinical trials, etc. Bharat Biotech follows a similar partnership model in all countries, where its vaccines are supplied, as it does not have its own offices in these countries. Bharat Biotech and Precisa Medicamentos are conducting a 5,000 subject phase III clinical trial in Brazil, which was recently approved by ANVISA. The trial will be conducted by the Albert Einstein Institute. "According to the preliminary analysis of the CGU, there are no irregularities in the contract but, for compliance, the Health Ministry chose to suspend the contract for a more in-

Judges shouldn't get swayed by public opinion on social media: CJ

NEW DELHI : Chief Justice of India, N.V. Ramana on Wednesday said judges should not be swayed by the "emotional pitch of public opinion on social media platforms", and the judiciary cannot directly or indirectly be controlled by the legislature or the executive. He also insisted media trials cannot be a guiding factor in deciding cases. Delivering the 17th Justice P.D. Desai memorial lecture on "Rule of Law", Chief Justice Ramana said: "The judiciary cannot be controlled, directly or indirectly, by the legislature or the executive, or else the Rule of Law would become illusory. At the same time, judges should not be swayed by the emotional pitch of public opinion either, which is getting amplified through social media platforms." He emphasised that

judges have to be mindful of the fact that the noise thus amplified is not necessarily reflective of what is right and what the majority believes in. The new media tools that have enormous amplifying ability are incapable of distinguishing between right and wrong, good and bad, and the real and fake, he added. "Media trials cannot be a guiding factor in deciding cases extremely vital to function independently and withstand all external aids and pressures. While there is a lot of discussion about the pressure from the executive, it is also imperative to start a discourse as to how social media trends can affect the institutions," the Chief Justice said. He also clarified that the judge, and the judiciary need not completely disassociate from what is going on. "Judges cannot stay in ivory castles and decide

questions which pertain to social issues... The ultimate responsibility of a judge is, after all, to uphold the Constitution and the laws. Reason, reasonableness and protection of human dignity are the values that will serve us well," he added. He stressed that for the judiciary to apply checks on governmental power and action, it has to have complete freedom. "And the importance of the judiciary should not blind us to the fact that the responsibility of safeguarding constitutionalism lies not just on the courts," he noted. He said the judiciary is the primary organ which is tasked with ensuring that the laws which are enacted are in line with the Constitution. "The Supreme Court has held this function to be a part of the basic structure .

EASTERN RAILWAY
Tender Notice No.: 222-S/1/W-II, dated: 28.06.2021. Following e-tenders are invited online by the Divisional Railway Manager, Eastern Railway, Sealdah for the following works: SI.No-1, Tender No.: TN-69-21-22. Name of the work: Improvement of suburban station of Agarpara & Belgharia station on North Main and South section in the jurisdiction of Senior Divisional Engineer/1/Sealdah. Tender value: ₹ 2,96,84,446.05. EMD : Nil. SI.No.-2, Tender No.: TN-70-21-22. Name of the work: Sealdah Division: At Chipore- 40 meter extension of goods sick line cover shed at main line end in the jurisdiction of Assistant Engineer/Ballygunge. Tender value: ₹ 1,81,11,573.78. EMD : Nil. SI.No.-3, Tender No.: TN-71-21-22. Name of the work: At Sealdah, Belghoria and Barrackpore- Provision of Track Machine Stabling Siding PF for track renewal works including provision of Rest Room with toilet facilities along with ramp, one shed 6.0m x 4.0m for maintenance work and road connectivity under the jurisdiction of Sr. Divisional Engineer/1/Sealdah. Tender value: ₹ 49,66,544.27. EMD : Nil. Date and time of closing of tender : 28.07.2021 at 15.00 hrs. (for SI.No. 1 to 3 each). The tender documents and other details are at www.irps.gov.in. The bidding for the tender is to be submitted through the e-tendering on above website. Manual offers will be summarily rejected. Date and time of opening of tender is 28.07.2021 at 15.30 hrs. (for SI.No. 1 to 3 each). (SDAH-45/2021-22) Tender Notices are also available at website www.e.irindarrailways.gov.in/www.irps.gov.in
